Studentenwerk im Saarland e.V.

english version

Kindertagesstätte

des Studentenwerkes im Saarland e.V.

Studentenwerk im Saarland e.V.

The idea and organization

The Studentenwerk im Saarland e.V. operates a kindergarten on campus in Saarbrücken, in which children of students in the Saarland University are firstly looked after. When there are still free places by us, we will also take care of children, whose parents are not or no longer enrolled at Saarland University.

We'd like to support students with children in the education of their children so that their burden of study can be eased. The kindergarten is located in the Building D4.1 on the campus, i.e. Mensa building.

Our education is based on multi-cultural values, because we take care of children from all over the world.

Our pedagogy aims at educational fields which are defined in the educational programmes for kindergartens in Saarland. According to our condition, we work on the following key points of these educational programmes:

- Body, Movement and Health
- Social and cultural environment, values and religious education
- Language and writing
- Visual arts
- Music
- Basic mathematics
- Basic scientific and technical experiences

Daily life enriched by lots of offers

Our offers are completed by a variety of services and programmes, e.g. elementary music education, learning of foreign languages through games, forest days, movement education and so on.

Our kindergarten was selected by the federal ministry for family affairs in the project "early opportunities" („Frühe Chancen“) as focus of kindergarten language and integration. Thus children, whose mother tongue is not German, can improve their German through games. The family should also be engaged in the program. If you have any question in terms of this program, please don't hesitate to consult our specific educator.

Besides, primary school teachers and educational staff of our kindergarten cooperate with each other according to an initiative of the Saarland Ministry of education in children's last year of the kindergarten to enable the children complete step by step the transition from kindergarten into primary school.

In addition to the classrooms, function rooms, a gymnasium in the basement of the Mensa building and a large forest playground can also be used by children.

Welcome to our kindergarten and nursery

Our kindergarten takes care of 66 kids from the age of eight weeks up to school age. Different service time is available by us: half day or full day care in the nursery. In addition, an extended half-day care till 14:00 can also be chosen in our kindergarten.

Opening times

Our kindergarten is open from Monday to Thursday, from 7:30 to 17:00, on Friday to 16:00. In summer (following the semester holiday), our kindergarten is closed for three weeks. Between Christmas and New Year, our kindergarten may be conditionally closed for several days due to the annual closing of the Studentenwerk im Saarland e.V.

Costs of care

You can find the current cost of care on our website at www.studentenwerk-saarland.de/de/Kinder/Elternbeiträge. You can also ask for the costs over the telephone at the below mentioned contact person.
